PROPERTY DESCRIPTION

Do you need easy access to I 83 and Rte 30? This split level 3 bedroom 1.5 bath is centrally located for commuters to Harrisburg or Maryland. It is close to restaurants, and shopping centers, but you have the feel of living away from the hustle bustle. As you drive up to the home you can see the potential of the home to put your own personality to work. Imagine sitting on the covered front porch on a beautiful day and enjoying the outdoors. As you enter the home you walk into the living room which features original wood flooring and a bay window. You will enjoy breakfast in your eat -in kitchen. Want to entertain? You can have a nice dinner with your friends and family in the dining area featuring wood floors. Steps from the kitchen will take you down to the family room. There is Berber carpet in this room which is great for heavily traveled areas. Walk out and enjoy the sun room overlooking the slightly sloped .22 acre lot and shed. From the family room you will be able to go down to the lower level rec/game room. The rec room has newer carpet and vinyl. The laundry is also on this lower level. The third level contains a full bath and 3 bedroom. New carpet on this level. Some updates to the home are: newer roof and hot water heater.
